SAVE THESE INSTRUCTIONS FOR FUTURE USE

This model is for household use only. Commercial use of this unit voids the manufacturer's warranty.

⚠️ WARNING

Improper connection of the equipment-grounding conductor can result in a risk of electrical shock. Check with a qualified electrician or service person if you aren't sure if the outlet is properly grounded. DO NOT MODIFY THE PLUG. If it will not fit the outlet, have a proper outlet installed by a qualified electrician. This appliance is designed for use on a nominal 120-volt circuit, and has a grounding attachment plug that looks like the plug in the illustration. Make certain that the appliance is connected to an outlet having the same configuration as the plug. No plug adapter should be used with this appliance.

GROUNDING INSTRUCTIONS

This appliance must be connected to a grounded wiring system. If it should malfunction or break down, grounding provides a safe path of least resistance for electrical current, reducing the risk of electrical shock. The cord for this appliance has an equipment-grounding conductor and a grounding plug. It must only be plugged into an outlet that is properly installed and grounded in accordance with all local codes and ordinances.

Assembly

⚠️WARNING

Do not plug in your deep cleaner until you are familiar with all instructions and operating procedures.

Your deep cleaner comes in two easy-to-assemble components.

- Upper handle
- Portable spot cleaner/Base

The only tool you will need to assemble your cleaner is a Phillips screwdriver.

Slide handle into base.

On the back, insert 4 screws in a slight upward angle.

Wrap cord.

Make sure hose is wrapped. Rotate the latch to lock into place.

Attachments may face forward for best fit.
Store an attachment on the end of the hose.
Since attachments vary by model, see carton for which attachments are included.

Keep plenty of genuine BISSELL 2X* formula on hand so you can clean and protect whenever it fits your schedule.

Always use genuine BISSELL deep cleaning formulas. Non-BISSELL cleaning solutions may harm the machine and will void the warranty.
